ABSTRACT

STRATEGY TO DEVELOP THE POTENTIAL OF RELIGIOUS TOURISM IN IMPROVING COMMUNITY ECONOMY (Religious Tourism at Mosque Al-Jihad Rd. Aria Wangsa Goparana Segalaherang Subang)

Indonesia has various tourism potentials. Tourism has an important role, including increasing economic growth, improving people's welfare, eliminating poverty, and overcoming unemployment. Subang Regency has a great opportunity in religious tourism, namely religious tourism at the Al-Jihad Rd Aria Wangsa Goparana Mosque, but it has not been so developed. Religious tourism is a trip with the aim of getting pleasure, satisfaction and knowledge. Religious tourism can be to mosques, graves of big people, historic people, leaders, or figures. The purpose of this study was to analyze the development strategy of the potential for religious tourism and the impact of religious tourism in improving the community's economy. The research method used is qualitative with SOAR analysis method, namely the analysis of identification of internal and external factors. In this case, the writer analyzes the strategy for developing the potential of religious tourism. Based on the research results, the first conclusion is obtained, there are four alternative strategies, namely the SA strategy (Strength and Aspirations), OA Strategy (Opportunities and Aspirations), SR Strategy (Strength and Results), and OR strategy (Opportunities and Results). Second, with the existence of religious tourism, it is evident that there is an increase in the number of MSMEs and a reduction in unemployment and the opening of new jobs around tourist areas.
